

Claim 12, line 2, before "analyzing" insert --  
electronically--.

Remarks

The Applicant wishes to extend his sincere appreciation to the Examiner in this case for his recommendations for amending claims 1-11 for allowability. Claim 1 has been amended in accordance with these suggestions, and this claim and along with dependent claims 2-10 should now be in condition for allowance over the prior art of record.

Claims 11-13 have also been amended to limit the step of analyzing the resulting operation of the associated unit in order to determine its control codes to an electronic analysis, thereby distinguishing these claims from Rumbolt, which teaches only human recognition.

Based upon the foregoing amendments and comments, the Applicant believes all claims are now in condition for allowance, and respectively requests timely notice thereof.

Respectfully submitted,

By: 

John G. Posa
